Galleon Studios Launches "January Jumpstart" Offer: Double Your Content with Buy-One-Get-One-Free Video Podcasting

Monday 12 January, 2026

MANCHESTER, UK – Galleon Studios, Manchester's premier video production studio, has launched a bold initiative to help creators stop planning and start filming. The "January Jumpstart" offer is designed to eliminate the procrastination that often stalls new projects by offering clients the chance to bank a massive amount of professional content for **literally half the price.**

Throughout January 2026, clients booking the studio's high-end video podcasting suite at the standard rate of **£250+vat per hour** will receive a **second hour free of charge**. By effectively doubling the studio time for every pound spent, Galleon Studios is providing unprecedented value for money for brands and individuals looking to dominate their niche in 2026.

"We know that many great ideas never leave the notepad because of the perceived cost or the 'perfect time' to start," says the Galleon Studios team. "By offering a 50% saving through this BOGO offer, we're removing those hurdles. It's about giving creators the ability to record an entire season's worth of content in half the time and at half the cost."

Kristen Gibson, Managing Director of Galleon Studios, notes that this drive for volume doesn't mean a sacrifice in quality:

"Throughout 2025, we saw a significant uptake in the use of our Podcast and Vodcast offerings. I think it's a direct response to the growing use of AI in companies' messaging. As such, I think people are looking for 'genuine content' by real people. We want experts in every industry and walk of life to get the opportunity to speak to and discover new audiences through Vodcasts. This offer will hopefully encourage people to seize the mic."

The "January Jumpstart" Details

To take advantage of this "half-price" content opportunity, the following terms apply:

- **Unbeatable Value:** Every hour booked at £250+vat earns a second hour free, allowing for massive content batching.
- **Consecutive Sessions:** There is no limit to how many hours can be purchased, but sessions must be taken consecutively (e.g., an 8-hour block is booked as four x2-hour sessions, with the free hour immediately following the paid hour).
- **Beat the Clock:** To secure the deal, sessions must be **paid in advance during January 2026.**
- **Shoot All Year:** While the offer must be claimed in January, the actual filming dates can be scheduled at any time throughout the 2026 calendar year.

Galleon Studios' podcast suite features multi-cam setups, professional audio engineering, and bespoke lighting, ensuring that "half the price" still results in the highest production standards in the North West.
