

GDPR Portal Offers 50% Promotional Discount for Charities

Monday 30 April, 2018

GDPR Portal, the cloud-based solution that provides small and medium-sized organisations with a cost-effective way to manage their compliance with the General Data Protection Regulation (GDPR), is pleased to announce that it is offering significantly reduced pricing for UK-based registered charities.

The General Data Protection Regulation (GDPR) comes into effect on 25th May 2018. Many charities, even if they have a theoretical understanding of the requirements of GDPR, may find it difficult to start the practical steps required for a successful GDPR compliance project.

Ben Grey, the Founder of GDPR Portal commented “We know that charities are concerned about the impact that GDPR will have on them. Not only do they have to document how personal data is processed. But also, and perhaps more importantly going forward they will struggle to effectively manage Subject Access Requests.”

Grey added “A high proportion of charities will really struggle with the burden imposed by GDPR and are at risk if they fail to respond to Subject Access Requests within the 30 day deadline. Many of them would like to use a solution such as GDPR Portal but they run on very tight budgets.”

To help them GDPR Portal is offering UK-based registered charities a 50% reduction in its standard pricing. An eligible organisation only needs to enter the promotion code CHARITY50 during the sign up process.

Grey said “There are many thousands of charities in the UK which do incredible work as well as many schools which are registered charities. And we think it’s important to do the right thing and help them manage the challenge of GDPR.”
