Dublin, 17th of December 2019

MiFinity, a global payments provider, today announced the launch and go-live of the MiFinity eWallet within the Genesis cashier. This payment solution will be available to players across the 10 Genesis brands, in multiple languages and markets. This is a significant milestone in the evolution of the MiFinity product.

Following on from MiFinity's integration with PaymentIQ in 2019 this is another key step in rolling out the MiFinity eWallet across multiple B2B platform providers and B2C Merchant operators.

The MiFinity eWallet is a fast, simple and secure way for customers to perform transactions with multiple local payment options that support deposit, withdrawal and transfer functionality in different currencies.

"We are very excited about the launch of our eWallet within the Genesis cashier. This is the result of months of hard work by all relevant parties and we look forward to expanding upon this partnership over the coming months", said Kieron Nolan, Chief Financial Officer, MiFinity.
