

Global News Media Innovators Shine at 2025 Digital Media Awards Worldwide.

Tuesday 6 May, 2025

The World Association of News Publishers (WAN-IFRA) is proud to announce the winners of the 2025 Digital Media Awards Worldwide, recognising outstanding innovation in digital news media across Africa, Asia, Europe, and the Americas.

Selected from 674 entries across five regions (South Asia, APAC, Africa, Europe, and the Americas), the awards, made during WAN-IFRA's World News Media Congress taking place in Kraków, demonstrate how publishers leverage digital tools to enhance journalism and engage audiences.

"While we talk a lot about the challenges facing news publishers, WAN-IFRA's Digital Media Awards are an opportunity to spotlight exciting innovations around the world," said Vincent Peyrègne, WAN-IFRA CEO. "The winners of our international competition are living proof that professional news organisations are on the rise. There is no shortage of innovations in the news and a lot to be learned from these inspiring projects."

2025 Digital Media Awards Worldwide Winners

Best Use of AI in the Newsroom

Best Data Visualisation

Reuters, United Kingdom – Buildings Wrapped in Solid Gasoline
Reuters investigated a fatal Valencia high-rise fire using 3D visuals, expert analysis and simulations to examine the role of flammable cladding, and highlight ongoing safety risks. Explore it [here](#).
