Haag-Streit UK looks forward to exhibiting at the RCOphth Annual Congress 2022

Tuesday 10 May, 2022

Harlow, UK – 10th May 2022 - Haag-Streit UK (HS-UK), the leading manufacturer and distributor of gold-standard diagnostic and surgical devices and instruments for ophthalmologists, optometrists, and orthoptists, is pleased to announce it will be exhibiting at Royal College of Ophthalmologists (RCOphth) Annual Congress on 23rd – 26th May 2022 at the Scottish Event Campus (SEC) in Glasgow.

HS-UK is exhibiting on stand B and is excited to showcase some new and recently-launched devices. The Eyestar 900 OCT-based eye analyser will be available on the stand with the new Anterior Chamber Suite. The recently launched addition to the Eyestar 900 provides precise measurements, comprehensive data analysis, and excellent images of the anterior chamber.

The new Imaging Module 910 (IM 910), paired with the BQ 900 slit lamp, will also be available on the stand for delegates to enjoy hands-on demonstrations. The IM 910 has been designed to capture outstanding images while allowing eyecare professionals to fully-concentrate on examining their patients.

The new iTrack Advance will be available on the HS-UK stand to showcase to attendees. The iTrack Advance combines the clinically proven iTrack™ canaloplasty microcatheter with an innovative handheld injector design.

Also available on the stand for demonstrations will be the Eyesi Slit Lamp and Eyesi Surgical VR simulators. HS-UK is very excited to be running a competition on the Eyesi Surgical simulator, giving contestants an opportunity to test their cataract and vitreoretinal skills and win a daily prize.

Other products available on the stand will include the SOLIX multi-modal OCT device, TT multispot laser, and the John Weiss range of ‘gold-standard’ surgical instruments.

Grahame Wood, HS-UK National Sales Manager, said, “Myself and the HS-UK Team are very excited to be attending the 2022 RCOphth Congress. We have some fantastic new products to showcase this year and I’m confident that the Eyesi Surgical competition will add an element of fun and friendly rivalry between delegates. This is a key event in the ophthalmology calendar and we are delighted to be meeting with valued customers face-to-face again.”
