Haag-Streit UK offers customers a free LENSTAR 900 breath shield

Tuesday 7 July, 2020

Harlow, UK – 7th July 2020 - Haag-Streit UK (HS-UK), the leading manufacturer and distributor of gold-standard ophthalmic and optometry equipment, is pleased to offer its valued biometer customers a free LENSTAR 900 breath shield.

With elective cataract surgery resuming in the UK, HS-UK is providing these breath shields to its biometer customers to ensure safety and duty of care for both operators and patients. The breath shield forms a transparent barrier between the patient and the LENSTAR device operator, in order to minimise the risk of the transfer of bacterium, virus or other micro-organisms that can cause disease.

The LENSTAR breath shields are quick and easy to install and it is recommended that they are cleaned and disinfected between each patient, as studies suggest that viruses are viable on plastic surfaces for up to 72 hours.

The LENSTAR biometer breath shields are available now and are free-of-charge. LENSTAR customers can request their breath shield by visiting https://hsuk.co/freelenstarbreathshield and completing the form.

For more information on the LENSTAR 900 biometer, please visit www.haagstreituk.com/lenstar, or email lenstar@haag-streit-uk.com.
