Halo Dogs Opens Private Hire Secure Dog Park in Enfield for Safe Off-Lead Exercise and Outdoor Adventures

Wednesday 29 July, 2026

Summary - Halo Dogs opens a private hire secure dog park in Enfield, offering exclusive off-lead exercise, training, and enrichment in a safe countryside setting for dogs.

London, UK - Halo Dogs is pleased to announce the opening of its new Private Hire Secure Dog Park, offering dog owners a dedicated outdoor space where dogs can exercise, train, and explore safely in a secure countryside environment. The new facility expands Halo Dogs' range of services while providing an option for owners seeking exclusive access to a spacious, enclosed field for recreation, enrichment, and training.

Located within Halo Dogs' private 540-acre countryside estate in Enfield, the secure dog park has been developed to meet the growing demand for safe, private outdoor spaces where dogs can enjoy off-lead freedom without distractions or concerns about unfamiliar dogs. The facility is available for private hire, allowing individuals, families, and professional trainers to reserve exclusive use of the field for exercise, recall training, socialisation, or simply spending quality time outdoors with their dogs.

At its core, the launch reflects changing priorities among dog owners, many of whom are looking for controlled environments that provide both safety and flexibility. Whether supporting puppies building confidence, rescue dogs adjusting to new surroundings, or energetic breeds requiring additional exercise, secure dog parks have become an increasingly valued resource for responsible pet ownership.

Halo Dogs has earned a reputation over the past 16 years for combining professional expertise with purpose-built facilities designed around canine welfare. What began as a dog rescue centre has evolved into one of the UK's most recognised names in dog daycare, luxury boarding, behaviour, and training. Today, the organisation welcomes thousands of dogs each year while continuing to invest in services that promote both physical wellbeing and positive behavioural development.

The new private hire dog park in Enfield, UK, complements Halo Dogs' existing training, daycare, and boarding services by giving owners direct access to the same countryside setting enjoyed by dogs staying at the centre. The secure field can accommodate a variety of activities, from structured training sessions to relaxed outdoor play, providing owners with the confidence that their dogs can exercise freely within a fully enclosed environment.

"Every dog deserves the opportunity to run, play, and explore in a safe environment," says Justin Kumaran, Founder of Halo Dogs. "Our new Private Hire Secure Dog Park gives owners the freedom to enjoy quality time with their dogs while knowing they are in a secure countryside setting designed entirely around their wellbeing. Since founding Halo Dogs, our goal has always been to raise standards in canine care, and this latest addition reflects that ongoing commitment."

The opening also continues Halo Dogs' long-standing focus on innovation within the dog care industry. The company has consistently introduced new approaches to canine enrichment, helping redefine traditional boarding by creating experiences centred on exercise, social interaction, and individual care. Its philosophy that dogs should enjoy genuine holidays rather than simply being accommodated has helped establish Halo Dogs as a trusted destination for owners throughout London and beyond.

As demand for premium dog care continues to grow across the UK, Halo Dogs believes facilities such as secure private exercise fields will play an increasingly important role in supporting responsible ownership. The company expects the new dog park to appeal to first-time puppy owners, owners of reactive or nervous dogs, professional trainers, and anyone looking for a secure outdoor environment where dogs can exercise at their own pace.
