Hannspree Introduces the 2nd Generation HANNSpad Series

Wednesday 30 October, 2013

Specialist Touch Screen Technology for the finest mobile computing experience

Consumer electronics manufacturer and AV specialist, Hannspree, is utilising its prowess and expertise in touch display technology to bring to market a new highly competitive large screen Tablet PC portfolio - Introducing the 2nd generation HANNSpad series.

The new Android based large screen HANNSpad Tablet PC series features specialist proprietary touch screen displays thanks to Hannspree's relationship with its parent company which boasts being the 3rd largest touch screen manufacturer in the world. Delivering a total solution product- from the Touch Module and Touch Sensor Cover Lens to the Touch Firmware, even the LED Glass panel, the HANNSpad series is 100% produced by HannsTouch and Hannstar.

The first model to be unveiled from the new series is the HANNSpad SN1AT71 which features; a 10.1" high end, ultra responsive 10-point IPS touch screen for the ultimate viewing experience, Quad Core power to deliver seamless mobile computing and entertainment, HDMI connectivity, Bluetooth, an Aluminum Alloy design available in two colours and much more. Hannspree will follow this up shortly with a 13.3" solution.

The SN1AT71 is available now from Misco RRP £149.99 and includes a 2 year manufacturer's warranty as standard
