

Harlette is Going to Let You Drip with Sweat

Friday 20 September, 2024

Harlette since 2016 have been on a worlds first exciting eight years of research and development journey across space Suborbital Lunar Maritime and Aeronautical. With verification through NATO Science and technology.

Harlette presented ground breaking research in Boulder Suborbital Aeronautical conference United States of America and has just got its very first trademark.

Harlette Epigenetic ^{TM?} Trademark just Approved in Australia & United Kingdom application submitted based on the Australian application. Harlette have also just been awarded the trademark Heartlette ^{TM?} in Australia & United Kingdom.

Creative Artists Agency London Office have recently offered an aquisition opportunity for Harlette's consideration. Harlette are raising capital in relation to this and the launch of Harlette ready to wear & Harlette Luxury Handbags

Harlette have acquired various bio indicators research technology sweat based and non sweat based to develop a solution for Harlette Beauty platform.

Harlette ^{TM?} are going to let you drip in sweat to determine if your Epigenetic.
