Heating Specialists – BestHeating – Introduce NEW Aluminium Radiator Collection

Thursday 16 March, 2017

Online designer heating specialists, **BestHeating.com**, have unveiled a stunning new collection of aluminium designer radiators - **The Milano Aruba Ayre**.

Ultra-lightweight and yet highly durable, the Aruba Ayre is the aluminium version of Milano Heating's bestselling designer radiator - the ever popular Milano Aruba.

Simpler to install and quicker to heat up, aluminium radiators have been popular across Europe for well over a decade, but are only just beginning to make their mark in the UK market.

BestHeating's E-commerce Manager, Jack Hutchinson, says: *"Milano Heating have done a great job in replicating the style of their most popular radiator for this range and we're really proud to be one of the first UK retailers to stock the Aruba Ayre."*

"Aluminium radiators have been a mainstay in the European market for some time now and everyone at BestHeating felt the time was right to introduce them to our store."

"I have no doubt that UK consumers will embrace the benefits of aluminium radiators and how they can help to reduce bills, enhance the look of a space and even add value to a property."

Featuring the same unrivalled style and build quality of the steel version, the Milano Aruba Ayre is lighter, simpler to install and quicker to heat up – helping users to minimise the impact their home heating has on the environment as well as reducing the cost of keeping their home warm.
