HomeServe creates 40 new engineer jobs across the UK

Wednesday 9 September, 2015

National leading home assistance provider, HomeServe Membership, is creating 40 new jobs for engineers across the UK, in the Midlands, North West, South East and South West.

The Walsall-based company is looking for multi-skilled and plumbing & drainage engineers, with applications open between now and the end of September.

Candidates can apply via HomeServe's new careers hub; an online portal designed to ensure the application process is smooth and provide job hunters with details about the company and its values.

Martin Bennett, CEO, HomeServe Membership, said; "Following our recent investment in young people through our recruitment of 17 apprentice plumbers, we are now expanding our engineer network even further with the creation of 40 jobs across the UK demonstrating our commitment to putting our Customers at the heart of everything we do.

"Our new recruits will all form part of this important journey, and we are looking for People committed to making life easier for our Customers, from diverse business sectors which all adds to the unique culture we are so proud of at HomeServe."

Engineers can apply by visiting: http://www.homeserve.com/uk/careers-hub.
