Excellence recognised by industry experts at Car Dealer Power 2015
www.hpicheck.com

Vehicle information expert, HPI has scooped the prestigious Car Dealer Power 2015 award for Provenance Check Provider of the Year - for the 3rd year in a row. Voted for by car dealers and key influencers in the motor industry, this recognition of HPI's commitment to protecting used car buyers comes from the people who really know a thing or two about who to turn to keep fraudsters at bay. Consumers can turn to www.hpicheck.com for a vehicle history check that is the most trusted by the trade.

The Car Dealer Power awards recognise the best automotive manufacturers, dealers and suppliers to the trade, with car retailers from up and down the UK voting for the companies that represent excellence for car buyers and the industry. Dealers voted the HPI Check® as the best vehicle history check of 2015, offering consumers added confidence in the quality and integrity of the check.

The HPI Check comes with a mileage check as standard, harnessing the power of a database that now includes over 200 million mileage readings. This provides used car buyers with vital protection against the threat of paying over the odds for a car that could be clocked. In addition, the HPI Check reduces the risk of buying a car recorded by the police as being stolen, as well as avoiding a car that still has finance owing against it. Some of these threats could see a buyer lose the car and the cash they paid for it. In addition to exposing a vehicle with a hidden history, the HPI Check comes with a £30,000 Guarantee, should the information HPI provider later turn out to be inaccurate or incomplete.

Neil Hodson, Managing Director for HPI, comments, "This is a prestigious award win for HPI, voted for by car dealers, the people who understand the risks facing used car buyers, every day. HPI won because dealers recognise the depth and accuracy of data held by HPI, as well our focus on customer service. This is a fantastic independent endorsement for HPI and we will continue to work with the industry to help close the net on fraudsters and help used car buyers shop with confidence."

About HPI:

Originally established in 1938, HPI Limited is a primary source of vehicle information for the UK motor industry and motoring consumer which, since December 2008, has been owned by Solera Holdings, Inc. Solera Holdings, Inc. is an integrated group of leading automotive claims solutions companies. Founded in January 2005 by Chairman and Chief Executive Officer Tony Aquila, Solera has expanded its geographic reach and now serves more than 55,000 business customers in over 50 countries across six continents.

HPI encompasses both the HPI database of all UK road registered vehicle descriptions and histories, and the National Mileage Register (NMR) which holds in excess of 200 million mileage readings.

Together, HPI and NMR represent one of the UK's largest vehicle information sources, combining and interpreting data from government agencies, industry bodies, private organisations, the police and the general public. Registering with HPI helps companies to protect their financial interests in motor vehicles and a wide range of other mobile assets. HPI Checks give purchasers instant confirmation of whether vehicles are correctly described, known to be subject to outstanding finance or serious accident damage, or recorded as stolen or "clocked".

'HPI' and the HPI logo are registered trademarks of HPI Limited.

(1) All prices include VAT and are correct as of 2nd January 2015
(2) Mileage Data is not covered by The HPI Guarantee
(3) *The HPI Guarantee is subject to terms and conditions
