

# Infinigate and KnowBe4 Expand Channel Partnership across Benelux, Nordics and Eastern Europe.

Thursday 10 September, 2026

## Infinigate and KnowBe4 Expand Channel Partnership across Benelux, Nordics and Eastern Europe.

Infinigate channel partners gain access to a comprehensive range spanning attack simulation and training, collaboration and agent security.

**Rotkreuz, Switzerland — 10 September 2026.** The [Infinigate Group](#), the leading technology platform and trusted advisor in Cybersecurity, Cloud & Network Infrastructure and [KnowBe4](#), the leader in digital workforce security, securing both AI agents and humans, have announced the expansion of their successful partnership across the Benelux, the Nordic region and Eastern Europe.

Through KnowBe4, Infinigate channel partners can offer a fully agentic platform designed to secure both people and AI agents, helping organisations address critical and fast-growing cyber risks, including phishing and deepfake attacks.

[KnowBe4's Platform](#) brings together key components of workforce security, including Attack Simulation & Training, which moves organisations beyond passive learning to active, behaviour-based and measurable cyber risk reduction, [email & collaboration security](#), an AI-powered solution built to detect and prevent advanced email and messaging app threats across inbound and outbound communications, and Agent Security with its [Agent Risk Manager](#), a defence system designed to secure, monitor, and govern the behaviour of autonomous AI agents

KnowBe4's Email and Collaboration Security integrates seamlessly to detect and prevent sophisticated threats, including phishing, business email compromise and data loss. The layered cloud defences spot and stop phishing, malware, and social engineering attacks, blocking threats before they hit your inbox. Combined with KnowBe4's SAT, powered by AI Defence Agents that deliver personalised security training at scale and adapt content to each employee's risk level and behaviour patterns, it provides a dynamic approach to protecting businesses of all sizes from increasingly sophisticated cyber-attacks.

KnowBe4 is a trusted security vendor, approved by Microsoft as part of its [Integrated Cloud Email Security \(ICES\) Vendor Ecosystem](#) enabling Microsoft Defender for Office 365. The KnowBe4 Platform is seamlessly and automatically integrated into your security architecture and threat activity can be monitored and managed from a unified dashboard.

Kai Grunwitz, Chief Growth Officer at Infinigate, said: "As AI transforms the way organisations operate, managing human and AI-related risk has become a business imperative. Our expanded partnership with KnowBe4 enables partners to help customers strengthen resilience, reduce risk, and embrace AI with confidence."

Kurt Mills, Channel Chief at KnowBe4, commented: "We are excited to extend our partnership with Infinigate, building on our successful collaboration in the UK&I market and bringing KnowBe4's advanced range of human and agent risk management solutions to the growing Benelux, Nordic and Eastern European markets.

With its deep cybersecurity and channel expertise, strong sales execution, and professional sales, technical and marketing resources, Infinigate is uniquely positioned to take our solutions to market with confidence and real-world insight."

The extended partnership is effective immediately across the Benelux region, the Nordic region, including Denmark, Finland, Iceland, Norway and Sweden, and across Eastern Europe, including Bulgaria, Croatia, Czechia, Hungary, Poland, Romania and Serbia.

### About the Infinigate Group

The Infinigate Group, the leading technology platform and trusted advisor in Cybersecurity, Cloud & Network Infrastructure sets itself apart for its deep technical expertise, delivering locally tailored solutions and services to SMB and enterprise customers across EMEA and ANZ.
