

Infinigate Appoints Sabine Hammer to Lead DACH Cybersecurity, Cloud and Network Infrastructure Business

Monday 17 August, 2026

As the new RVP DACH effective 1 October 2026, Sabine will drive growth for this important geography across cybersecurity, cloud and network infrastructure. She succeeds André Stark, who has decided to pursue a new business opportunity.

Munich, Germany, 17 August 2026 – The [Infinigate Group](#), a leading technology platform and trusted advisor in Cybersecurity, Cloud and Network Infrastructure, has appointed [Sabine Hammer](#) as Regional Vice President (RVP) to lead its business operations in DACH, strengthening the Group's regional leadership team as it continues to accelerate growth across cybersecurity, cloud and network infrastructure.

After successfully leading the DACH organisation through an important phase of development over the past two years, André Stark will hand over his responsibilities to Sabine Hammer, effective 1 October 2026.

With more than 20 years' leadership experience in the IT industry, Sabine brings extensive expertise in strategy development and sales management, across both the vendor and distribution sides of the channel ecosystem.

She has held senior leadership roles across the IT channel for HP, ALSO Germany and Lenovo. At ALSO Germany, she served as a member of the German Management Board, with responsibility for the company's entire B2B sales of the distribution business in Germany. She subsequently held senior DACH and EMEA channel leadership roles at Lenovo, most recently leading the value business development, where she was responsible for go-to-market strategy, partner ecosystem growth and strategic alliances.

Commenting on her new role, Sabine Hammer said: "Infinigate is a leading value-added distributor in the DACH market, with a strong reputation as a trusted adviser in cybersecurity, cloud and network infrastructure. I am proud to lead such a high-performing organisation through its next phase of transformation, working with our vendors to deliver greater value for partners and customers.

With rising demand for cybersecurity, accelerated by AI, and a clear Group strategy, this is an exciting time to join Infinigate. I look forward to contributing to the continued success of the Infinigate Group and its leadership team."

Marco van Kalleveen, CEO of the Infinigate Group, commented: "We are grateful to André for guiding the DACH team through an important period of development, and delighted to welcome Sabine as she leads the region into its next phase of growth. DACH is a key market for Infinigate, and we look forward to accelerating growth for vendors and partners as a leading cybersecurity VAD platform."
