Intrafocus is a Crown Commercial Service Supplier of QuickScore

Monday 9 September, 2019

Intrafocus is proud to announce it is a **Crown Commercial Service Supplier** of QuickScore the world-acclaimed Key Performance Indicator (KPI) management software.

Intrafocus is a Crown Commercial Service Supplier to the UK Government's Digital Marketplace called the G-Cloud 11 Framework. This means any government department can order QuickScore quickly and easily through the existing Digital Marketplace processes. You can find the Intrafocus entry here: KPI and Management Dashboards.

"We are delighted with this change in status," says Clive Keyte, Director at Intrafocus *"being a Crown Commercial Service Supplier is a great honour and we are confident we will meet the challenge and deliver the very best KPI Management solutions to the UK Government."*

Intrafocus is one of the very few suppliers who can provide strategic consultancy that is underpinned by a world-acclaimed software solution. It is a well know industry problem that even the most well thought through strategies fail during the implementation phase. The Intrafocus seven-step Strategic Planning Process (SPP) is based on the industry-standard Balanced Scorecard strategic methodology. But more importantly, the Intrafocus model uses QuickScore to ensure that not only is a strategy captured, but it is measured and monitored throughout the entire lifecycle including implementation.

About Intrafocus
Intrafocus is a business-performance management consultancy and software reseller. The software, provided by Spider Strategies®, is a KPI and scorecard management system linking KPIs to goals, strategic objectives, and initiatives or projects. Intrafocus runs balanced scorecard and strategy workshops to help organisations build, implement and manage strategy. The software is used by companies, large and small, across the world. The software can be easily integrated into any strategic planning process or added later as a management tool.
