

Introducing a NEW e-commerce home accessories and furniture company

Wednesday 26 September, 2018

Homebody Décor wants to do things a little differently. The launch of a new style of interior accessories website has been launched on to the market; one where you choose the type of style you want to achieve and then shop it. No tiresome website searching, just a simple way of creating your own home style statement.

Not everyone has the time or budget to keep re-styling their home to be in line with the current trends. By taking an interior magazine ethos, Homebody Décor inspires you the items that fit into a specific style – a version of a “capsule wardrobe” for your home.

Their boutique range of home accessories and furniture adds a statement to your home, so you don't have to wallpaper your entire room for the tenth time this year to achieve a high end look. With key statement pieces in different edits, including Country Luxe, Botanicals & Metals, Industrial & Vintage, as well as a Pantry section, these hand-picked accent items are affordable as well as stylish.

Homebody Décor was born out of frustration with 'not quite finding' the right item, at a good price, to suit a specific look. After hours of hunting for products under a product type rather than a style, Homebody Décor owner, Jenny Myers, decided that this was a unique way of developing a home interior's e-commerce site.

Following the renovation of a number of houses, including a Grade 2 listed cottage, and with over a decade of experience in Shopper Marketing for large FMCG companies, Jenny decided to throw caution to the wind and invest in setting up Homebody Décor. She has not looked back since! With an ever-increasing following on social media sites and blogger endorsement, this site is set to be a different and interesting way to shop for home accessories and furniture.

Homebody Décor is at the exciting start of its journey and to celebrate, it is currently offering FREE DELIVERY on ALL ORDERS!
