Introducing Macube Cleaner - Clean the System Storage on Mac and Deliver High Performance

Monday 20 February, 2023

Macube Cleaner is a robust feature-rich software launched to take complete care of Mac devices by cleaning the system storage and performing several other functions and increasing its performance to ease the lives of Mac users

Macube Cleaner aims to clean Mac's system storage and reclaim the storage space to make the device work more efficiently and smoothly. It is a simple cleaning and optimization program specifically designed for Mac users and stands as the best among all the available Mac cleaners in the market.

With Macube, users are free from any troubles of cleaning up trash, bulky and old files, and seldom-used apps and files, making sufficient space on the system. Instead, the software meticulously scans the system and detects app cache, leftovers from the trash bin, user logs/system logs and cache, and deletes the items found in a snap.

Highlights of Macube Cleaner

Mac devices have eased the job of professionals and technology experts, and Macube ensures the system's complete care, so it constantly delivers high performance at great speed.

Macube's user-friendly interface integrates smart technology to determine the rarely used and opened files on the system and cleans the valuable space to optimize the device's performance. The software works well on Mac OS 10.10 and later versions.

Macube handles extensions and private browsing history to protect users' privacy from third-party apps and unwanted people. It securely empties trash and efficiently manages and removes downloaded email attachments to free up disk space.

Macube's Key Functions

Macube Cleaner is dedicated to Mac users and focuses on lending solutions to clean up Mac devices and manage content with ease.

Simple installation process

Macube features a simple and intuitive interface that lets even inexperienced users manage the program well.

1. Detailed help section

Macube has a detailed help section (blogs) with free materials to help the users with "How to." Users can find the answers to their queries with detailed video tutorials, photos, and processes/guides to remediate immediate doubts.

2. Deletes large and old files

Macube Cleaner categorizes large files and makes it easy for users to locate the old and outdated unnecessary files, cramming the system and removing them. Users can delete redundant photos, watched TV shows and movies, unwanted songs, archives, and more.

3. Detects and cleans unwanted files

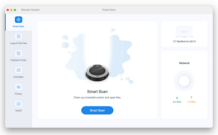

Macube scans the Mac device and accurately defines the device model and its current network status, helping users monitor the internet connection's speed at any time. The program finds and deletes all junk files without disturbing security and frees up the occupied space without much effort.

Macube's Prime Features and Benefits

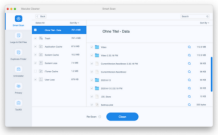

Macube Cleaner is a reliable and all-inclusive software to take complete care of Mac devices. Here are

some of its features that add value to Mac users and give them a seamless experience.

#1 Cleans system storage and clears junk

System storage occupies ample space on Mac, but Macube relieves the system storage in one click by clearing the system caches, user logs, system logs, app cache, mail cache, attachment, photos, videos, PDFs, ZIP files, and more without any hassle leaving users with sufficient space.

#2 Sorts out other storage

When tracing the "Other storage," users might not locate it accurately. Instead, Macube helps users clear and delete other storage by scanning and sorting out archives, caches, and system files and removing them entirely in a click. The software's Smart Scan feature quickly scans and cleans the system powerfully, guaranteeing the best cleanup experience with high security.

#3 Manages extensions

Scattered plugins and add-ons can be troublesome to manage. But Macube collects and manages the built-in/spotlight plugins, third-party extensions, login items proxies, Quicklook, startup items, and more, and turns them on/off in a single click.

#4 Cleans private browsing data

Macube ensures to hide all browser data from third parties to avoid unwanted access by cleaning the web history effortlessly. It offers the most convenient browser data removal for any browser and thoroughly cleans the browsing history, **clears cookies**, wipes autofill values, and erases download history and HTML local storage in a single click.

#5 Uninstall apps with a single click

The software is competent in finding and removing invisible apps slowing down the Mac. Macube Cleaner deletes the app entirely and makes the device run faster, making the user reclaim more disk space. In addition, it ensures higher security for deleting any leftover files safely.

#6 Enables shredding any file types

Macube lets users destroy any file type, like MP4, GIF, DOC, JPG, DMG, etc., on Mac devices, erasing the data and ensuring it deletes completely, making it unable to recover. Even stubborn malicious files can be deleted and destroyed in a few clicks.

#7 Finds and removes similar/duplicate items

SImilar and duplicate items take up sufficient storage space. But Macube finds and identifies various duplicate files of documents, music, photos, videos, etc., on Mac and removes them efficiently, enabling enough disk space.

#8 After-sales service and support

Macube takes users' queries quite seriously and ensures to cater to them immediately. The program provides glossy advantages, and other than the heightened features, it provides 24 x 7 customer support and responds to emails within 24 hours. In addition, users get the benefits of lifetime updates without extra charges or fees.

Pricing and Availability of Macube Cleaner

Macube Cleaner is an excellent Mac cleaning app that integrates multiple features like junk cleaning, removing duplicate files, shredding large and old files, uninstalling apps, etc., to ensure the Mac runs perfectly and delivers optimal performance.

It lets users use the program **completely free for 7 days**. The product comes with a zero-risk free trial to gain hands-on experience with its features and functions. People can even purchase the license of the full version once the trial period lapses to keep their Macs running smoothly and stable.

The software offers two flexible and convenient purchase options: A monthly plan and a One-time purchase plan.

One-month plan: US$ 8.95 for one month and one Mac

One-time purchase (Lifetime) plan: US$ 69.95 for perpetual and two Macs

The program offers multiple options to make safe payments through MasterCard, PayPal, UnionPay, VISA, American Express, JCB, Discover, etc. The payments made on the software are entirely secure and encrypted, giving the freedom to cancel and unsubscribe anytime.

The lifetime purchase plan also has a 30-day money-back guarantee if the user complies with the program's refund policies.
