LONDON - June 29, 2024 -

JOYHUB, an adult community focusing on sexual wellness, demonstrated its strong support for the LGBTQ+ community and equal rights in the Pride in London 2024 in this colourful June. Not only did JOYHUB provide a range of self-made peripherals for the event on-site, but it also offered limited edition gifts for many of its APP users, bringing much joy, love, and a sense of belonging to participants.

Overwhelming Response At the Event

JOYHUB's branded peripherals designed for users have become one of the highlights of the parade, making participants show great interest and love. Gifts distributed on the spot included limited edition silk scarves, personalized T-shirts, shopping bags and other fashionable items with rainbow elements, which not only highlighted JOYHUB's support for the LGBTQ+ community, but were also creative and practical, allowing each one to find a way to express themselves.

"We believe that our unique peripherals allow our supporters to show their identities even more proudly in the parade. The rainbow-themed masks hand-painted by our employees are one of the most typical peripherals, which express our authentic actions in support of the campaign." said JOYHUB's Marketing Director (Sweet Tian) in an on-site interview, where she shared JOYHUB's aspiration of participating in the Pride Parade.

Enthusiastic Feedback From Participants

"Whenever I see people putting on our T-shirts or other peripherals, I feel incredibly proud." A JOYHUB team member said. Many participants at the event also expressed their recognition and appreciation of JOYHUB's support for the LGBTQ+ community. They happily shared new gifts with their friends and also on social media, and these interactions generated a lot of attention and discussion both online and offline.

JOYHUB users who received the peripherals on-site showed high praise, saying, "These gifts are not just a small piece of clothing and ornaments, but also an expression of JOYHUB's support and respect for the LGBTQ+ community, making people feel understood and accepted."
