Karta Consulting Launches Groundbreaking Philanthropic Initiative to Connect Financial Institutions with Grassroots NGOs

Monday 22 July, 2024

Karta Consulting, an established provider of environmental, social, and governance strategies, is proud to announce the launch of a significant philanthropic initiative aimed at bridging the gap between financial institutions seeking to enhance their community contributions and small non-governmental organizations driving grassroots change. This innovative project will be spearheaded by Lucie Rochat, Business Development Manager at Karta Consulting.

Empowering Communities Through Strategic Partnerships

In today's rapidly evolving financial landscape, institutions are increasingly recognizing the importance of integrating ESG principles into their operations. However, many struggle to identify and connect with smaller NGOs that are making a tangible impact at a local level. Karta Consulting's new initiative aims to address this challenge by facilitating strategic partnerships between financial institutions and NGOs, fostering sustainable and meaningful community development.

Lucie Rochat: Leading the Charge

Lucie Rochat, who has been with Karta Consulting for over five years, brings a wealth of knowledge and a proven track record in business development and community engagement. Her leadership will be instrumental in ensuring the success of this initiative.

"I am honored to lead this transformative project," said Rochat. *"By connecting financial institutions with grassroots NGOs, we can create a powerful synergy that not only enhances community contributions but also drives long-term, sustainable impact."*

Key Objectives

The initiative is designed to identify and vet NGOs that are making significant contributions to their communities. By establishing a rigorous selection process, Karta Consulting ensures that only the most impactful organizations are chosen. Through this approach, the firm seeks to enable financial institutions to easily connect with vetted NGOs and facilitate partnerships that are beneficial for both parties.

A Vision for Sustainable Impact

"At Karta Consulting, we believe that true sustainability is achieved when businesses and communities work together towards common goals," said Rochat. *"This initiative is a testament to our commitment to driving positive change by leveraging our expertise in ESG strategy. We are thrilled to launch this project and look forward to seeing the meaningful outcomes it will generate," Rochat added.*

In addition to facilitating partnerships, Karta Consulting will implement a robust monitoring and reporting framework to track the progress and impact of these collaborations. This will ensure transparency and accountability, allowing both financial institutions and NGOs to see the tangible benefits of their efforts.

Looking Ahead

Karta Consulting's philanthropic initiative is set to launch in the coming months, with initial partnerships already in the pipeline. The company invites financial institutions and NGOs interested in participating to reach out and join this groundbreaking effort.

About Karta Consulting

Karta Consulting, based in Geneva, specializes in crafting innovative ESG strategies that drive sustainable growth and ethical business practices. With a strong focus on the finance sector and a broad reach into various other industries, Karta Consulting is dedicated to helping organizations achieve their ESG goals and make a positive impact on society and the environment.
