Manchester based Kirsty cites Eckhart Tolles The Power of Now as the main inspiration for her writing the track:

"With 2012 being such an uncertain year, 'Cool Down Rewind' is a reminder to myself and others, to make sure that we give each passing moment our full attention, to slow things down in this hectic world and to sometimes just watch the simple beauty of life unfold around us."

Kirsty featured recently in a ten-minute documentary on BBC1s Inside Out. In it, she discussed the independent path shes following, building a sustainable career as an artist with her uniquecottage industry approach - after walking away from a recording deal with a major label.
