Krypt Announces Advisory & Contract Services for Global Trade & Supply Chain

Thursday 1 October, 2020

San Jose, CA | October 1, 2020 - Today Krypt is launching 'Krypt Business' – a new division formalized after years of helping customers with strategic and operational assistance in addition to the usual scope of systems solutions. Industry stalwart Karen Murphy has joined the company and will lead the Krypt Business Practice to help customers with Supply Chain and Global Trade strategy and operations. Given the current state of world affairs and disruptions caused by COVID-19 and related shutdowns across the globe, now more than ever customers need partners like Krypt to step up and be part of their team and guide them on the path forward. With years of industry experience, the team at Krypt is uniquely qualified to serve our customers with a progressive partnership and navigate the new normal together.

Krypt Business is comprised of scalable Advisory and Contract Services for customers across the globe from any market segment who wish to maximize their investments, lower costs and improve their processes. Advisory Services includes aspects such as strategy and design, vendor selection, solution utilization and process creation, in addition to many other services. Contract Services provides the customer with Krypt experts to automate repetitive or manual tasks such as product classification, sanctioned partly list screening and more. Krypt Business customers will have access to Krypt experts to help them improve processes, reduce costs and gain a competitive advantage.

"While working with customers over the last 12 years we have seen a trend of customers needing more than just a service provider - they need a partner. Someone who has expertise in the areas of Global Trade and Supply Chain who can help advise them, or to handle some tasks for them. We created Krypt Business to provide our customers with an opportunity to get more than just an implementation project, but a partner they can trust to help them with their specific needs from planning to execution to maintenance and support. Krypt Business will help our customers drive added value from their business by utilizing not just Krypt's systems knowledge, but also Trade and Supply Chain Management strategy and process optimization."

-Jigish Shah*, Founder & CEO, Krypt Inc.*

Krypt Business will be led by industry veteran Karen Murphy. Karen has over 20 years of experience in Global Trade and Supply Chain. Karen's experience working for Applied Materials and Flex equips her with the deep understanding of customer challenges and the ever-changing landscape of Global Trade and Supply Chain.

As a part of the Krypt Business launch, Krypt is offering a limited time promotion of a FREE Global Trade or Supply Chain ASSESSMENT – worth US$10,000, for new customers. Krypt experts will review the current processes, solutions and structure of the existing Global Trade and Supply Chain and provide valuable feedback and recommendations. Contact Krypt for more information.

Krypt is the premier partner for Global Trade and Supply Chain. Headquartered in San Jose, CA, Krypt has offices around the world including Ireland, India, Netherlands, China, Canada, Germany and UK. As a boutique consulting company, Krypt is uniquely positioned to provide its customers with services ranging from business consulting through execution and support. We are a 'One-stop Shop' for our customers' Global Trade and Supply Chain needs. In addition to expertise in SAP solutions, Krypt has developed proprietary solutions to address customer needs as well as innovative solutions in Blockchain and Artificial Intelligence & Machine Learning.
