

Launch of New Funding News Service for UK Charities and Not-for Profit Organisations

Tuesday 6 February, 2018

Funding Website "Grants Online", has re-launched itself as the UK's first dedicated online **Funding News Service**. Building on its 16 years of experience in providing information on grants, Grants Online has re-focused its vision to bring information on the latest funding opportunities to not for profit and statutory organisations such as charities, community, schools, colleges and voluntary groups, social enterprises and local authorities.

Alongside its new focus, the Grants Online web site has had a major re-design to enhance the News Service vision.

Unlike many other funding websites that charge for access, access to the Grants Online website is free and organisations only pay a subscription fee to access more detailed information and the more advanced features of the website.

Andreas Lichters; Managing Director of Grants Online Ltd *"We are very excited about the new vision for Grants Online as a news service rather than just a static grants database. Having access to information on the latest funding opportunities is a critical advantage to organisations reliant on grant funding"*.

To visit Grants Online please go to www.grantsonline.org.uk or email us at info@grantsonline.org.uk for more information.
