Bombyx is an extraordinary SUPPLEMENT that SUPPORTS A HEALTHY LIBIDO KEEPING THE BODY YOUNG AND ACTIVE.

Healthy natural hormone levels at any stage of life are conducive to women's health in general and an active enjoyable sex life in particular.

Let's face it, we all want to stay young and fit with a healthy libido.

Physiological problems happen over time, sometimes from the very first form of contraception in your teens.

Lack of libido or enthusiasm for a good sex life can cause problems at any stage of life.

Women's hormonal systems and psyche are far more COMPLEX than men's.

Throughout life a women's body makes different sex hormones, progesterone, oestrogen and small amounts of testosterone.

During peri **menopause**, menopause and post menopause oestrogen and progesterone hormone levels decrease. It is just a fact of life.

In women, small amounts of testosterone continue to be made by the adrenal glands but as this decreases so can your libido.

Bombyx for women has been formulated to support health, wellbeing, energy, libido and a healthy active mind. Natural supplementation, a balanced microbiome, good diet, exercise and a loving relationship are all part of a woman's health and enjoyment of life and sex.

Staying fit, healthy, young in mind and body whichever stage in life you are at is directly connected to a healthy libido. If you have slowed down or just need some extra support look at Bombyx for women.
