TSB has improved mobile access for customers this week, by launching a new and improved [mobile banking app](#) for Android and Apple smartphones and tablets. The new app will make it quicker and easier for customers of [TSB](#) to carry out their day-to-day banking activity wherever and whenever is most convenient for them.

In addition to featuring an updated look, the new app is designed to be easier to use, as well as faster and more responsive than the previous version.

Features of the app include:

- Quicker logins. People can log in quickly and securely using just three characters from a user's memorable information, once they have completed the app registration process.
- [Pay a Contact](#) (PayM) compatibility. This is a new and easy way to send and receive payments between friends and family members by using just a mobile phone number.
- View statements conveniently.
- Create and pay new accounts.
- Branch and ATM locator.

Nearly 1 million people have used TSB's mobile Internet banking and over two-thirds (67 per cent) of TSB's Internet banking logins are now made via smartphones and tablets.

Ashley Machin, TSB's Chief Digital Officer, said: "Our new mobile app is a great example of how TSB is delivering local banking on demand. We know that customers like our "bricks and clicks" model – allowing people to bank with us in a way that's convenient for them – and we've worked hard to make the new app faster and even easier to use."

The app is available for customers using Android v2.3 and above, and Apple iOS v5.0 and above. Existing users will receive an app update, while new users can download it by searching 'TSB' in [Google Play](#) and the [App Store](#) or by visiting our [mobile banking page](#).

People with Windows and BlackBerry phones can continue to use TSB's previous app or login via their device's Internet browser.

Notes to editors:

TSB was created to bring more competition to British banking – to be a real challenger to the big banks and to deliver the kind of banking the people of Britain want. TSB only serves local customers and local businesses to help fuel local economies, because communities thriving across Britain is a good thing for all of us.

We have a simple, straightforward and transparent banking model and make clear on our website how we operate and make money. We offer the products and services people tell us they want, with none of the funny stuff people normally associate with traditional banks.

Our 4.6 million customers, award winning mobile and digital banking, nationwide network of branches and 8,500 Partners mean we are big enough to make a difference, but small enough to be an agile challenger to the entire market.
