Loncin to Present Four New Models from VOGE and LONCIN at EICMA 2026 under “OVER THE LINE”

Sunday 1 November, 2026

Loncin will bring its VOGE and LONCIN brands to EICMA 2026 in Milan under the theme “OVER THE LINE”, presenting a line-up spanning urban mobility, leisure riding, outdoor work and recreation. The new model launch will take place at Stand A98, Hall 10, at 11:20 a.m. on 4 November, Milan local time.

Four new models will be introduced: the VOGE R800 and SR16 380, and the LONCIN UWolf550 and XWolf450. The R800 focuses on handling and riding enjoyment in the larger-displacement naked motorcycle segment. The SR16 380 brings comfort and convenience to urban and suburban commuting. The UWolf550 expands outdoor working capability as a versatile utility platform, while the XWolf450 combines practical work functions with recreational exploration.

“OVER THE LINE” reflects how people expect more from their vehicles. A daily commute can become a leisure ride, while outdoor work can share the same route as an adventure. Each new model offers a different way to move between these experiences.

Alongside the four new models, VOGE and LONCIN will exhibit other models from their respective ranges, offering a broader view of both brands’ portfolios. Loncin looks forward to welcoming international media, partners and visitors to explore new possibilities in riding and outdoor life.

New model launch: 4 November 2026, 11:20 a.m. Milan local time

Location: Stand A98, Hall 10
