

Love in Motion: Crazy Domains Holds Free Meals Program

Tuesday 30 August, 2016

Cebu City, Philippines – August 30, 2016

Crazy Domains staff joined charity volunteers from ANCE for a day of fun, education and free meals for children.

Launching Crazy Domains Community, an initiative that aims to help the disadvantaged and other groups in need, the 'Love in Motion' event was a tremendous success, helping more than a hundred children.

The tech company collaborated with the non-profit Action for Nurturing Children and Environment Inc. to provide children in Carreta with free meals.

Before lunch, the children also participated in fun games, including performing a song and dance, and received colourful balloons as reward.

Volunteers also read to the children the story of The Greedy Hippo (translated into local vernacular) and facilitated an arts and crafts session, with the children getting to make their own animal masks.

John Tamang, Global Support Manager for Crazy Domains, joined the event to help out the organisers, and assisted with the meals. Tamang said:

"This effort was a way Crazy Domains to give back to the community. We are honoured to team up with ANCE, and hope that this leads to more collaboration in the future.

"We are very glad to have been able to provide these meals to the children in Carreta."

"Crazy Domains is committed to improving lives, not just by providing trusted and affordable online solutions with premium service, but by fulfilling what we see as our social responsibility to people from all walks of life."

Julio Esada, head facilitator of the Lorega and Carreta area for ANCE, said: "We are very grateful that Crazy Domains helped us out with this activity, and we appreciated their help handing out meals to mothers of the children."

"We hope the company will continue to support out other activities," Esada said.

The official humanitarian initiative of Crazy Domains, Crazydomains.community has more events planned in the near future. To learn more about this initiative, visit www.crazydomains.community.

Established in 2006, ANCE is a faith-based non-government organisation that aims to develop individuals through evangelisation.

About Crazy Domains

One of several trusted companies under Dreamscape Networks, Crazy Domains was originally established in 2000 as Aust Domains, an Australian licensed Domain Name Registrar.

"Crazy Domains" was born in June 2007, and today leads the industry as an affordable online service provider with premium service.

Known for its simple business platform allowing customers to manage and connect instantly to cloud web hosting, email hosting, online marketing services and more, Crazy Domains is a place to call home for millions of customers and domains.
