Where Fragrance Meets Fantasy: Maison Potion Transforms Scent into Storytelling, Unlocking the Magic of Personal Expression.

Manchester, UK – 2nd December 2024

Maison Potion, the luxury fragrance house celebrated for its enchanting creations, is inviting the world to explore the magic of scent through **storytelling**. With the launch of its latest collection, each fragrance is accompanied by a beautifully crafted narrative, designed to transport wearers into an **enchanted world** that reflects the essence of the scent.

This innovative concept connects fragrance to personal stories, memories, and dreams, making Maison Potion's perfumes more than scents—they are experiences, **portals to magical realms**.

“Our fragrances are inspired by the belief that scent has the power to tell stories,” says **Omar Mian**, CEO, Founder, and Creative Director of Maison Potion. “Each fragrance is a chapter, and every wearer becomes the author of their own magical tale.”

Three Fragrances, Three Stories

The new collection from Maison Potion features **three captivating fragrances**, each inspired by a unique story:

The Stories Behind the Scents

1. Rose de Nuit: A Tale of Courage and Sacrifice

Step into the mystical Midnight Garden of Whispers, where Aria, an orphan with the gift of communicating with plants, embarks on a perilous quest to craft the fabled Rose de Nuit Potion. This fragrance captures her journey through trials of courage, wisdom, and transformation, blending complex and captivating notes that reflect the magical interplay of light and dark.

2. Velvety Mystique: A Journey of Harmony and Empathy

In the twilight kingdom of Auroria, young herbalist Layla must create the legendary Velvety Mystique Potion to mend her fractured world. Her quest, filled with trials of compassion and understanding, inspires this sophisticated scent—a balance of warmth, complexity, and a touch of mystery that embodies the power of unity and shared wisdom.

3. Enchanted Oud: A Story of Transformation and Discovery

Follow Zahra and Khalid, two siblings drawn to a hidden oasis by the mesmerizing scent of Enchanted Oud. Their journey through magical gardens and ancient trials leads to the creation of a fragrance that symbolizes transformation, courage, and boundless wonder.

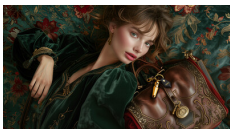

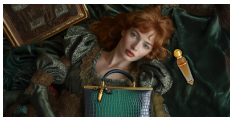

“Each of our fragrances offers a gateway into a world of magic and imagination,” says **Astyn Demaine**, Co-founder of Maison Potion. “They’re not just scents—they’re stories that help people connect to something deeper, something enchanting.”

The Power of Scent and Storytelling

Maison Potion's storytelling approach is rooted in the science and art of fragrance. By pairing evocative tales with olfactory masterpieces, the brand creates a multi-sensory experience that deepens emotional connections and inspires personal exploration.

Research shows that scent is closely tied to memory and emotion, making storytelling a powerful way to engage wearers. “When someone wears our fragrances, they’re not just wearing a scent—they’re stepping into a story, a feeling, a piece of magic they can carry with them,” explains **Omar**.
