MDN Group introduces Pre-M&A advisory services

Monday 9 January, 2023

MDN Group, a financial consulting firm with a long history of helping clients through the mergers and acquisitions (M&A) process, is pleased to announce the launch of its new Pre-M&A advisory services. The services are designed to provide clients with the support and guidance they need to navigate the intricacies of the M&A process and make informed decisions that maximize the value of their M&A activities. This service intends to advise beginning with a basic and effective project, the preliminary stage, to then decide on a prospective transaction in the case of potential interest in an M&A transaction.

MDN Group's Pre-M&A advisory services are provided on a retained basis, which takes two months and offers written confirmation of interest in an M&A deal. It formally helps in the formation, structuring, analysis, and execution of a public and private business purchase and sale transactions, as well as joint ventures and strategic alliances. This includes assistance with identifying potential targets, negotiating, and other important aspects of the pre-M&A process.

The main advantages of the Pre-M&A advisory service

- All M&A options have been chosen to best suit your firm (revenue, size, the geography of operations and sectors of activity, etc.)
- There is no exclusivity, no mandate, and the procedure is completely secret. All correspondence will be made exclusively in the name of MDN Group, and the identity of your firm will not be divulged.
- Within two months, you will have received confirmed results, allowing you to make a smart decision about your future interests.
- During the Preliminary Stage, MDN Group will not request any private information about your firm and will not bother your management team.

"Our pre-M&A advisory services offer a unique combination of industry expertise and strategic guidance," said MDN Group Associate, Victoria Thomas. "We are confident that this new offering will be a valuable resource for our clients as they pursue growth through mergers and acquisitions."

According to MDN Group Associate Robert Nilsen, "Our pre-M&A advisory services are designed to help clients navigate the decision-making and often unpredictable process of mergers and acquisitions. By providing expert guidance and support, we aim to help our clients make informed decisions and achieve successful outcomes."

Victoria Thomas, alongside Robert Nilsen, will be overseeing the pre-M&A advisory services. Victoria Thomas collaborates with clients to conduct in-depth analyses and develop valuation and exit planning studies that demonstrate industry and business performance, predictions, and total enterprise worth.

Robert Nilsen confirmed that the pre-M&A advisory services include market analysis, valuation support, and negotiation strategy development. He buttressed his point by saying that the firm's team of experienced professionals has a track record of helping clients maximize value and minimize risk during M&A transactions.
