Meraki Global Advisors LLC ("Meraki"), The Premier Global Buy-Side Trading Solution

October 19, 2020 - Park City, Utah - Meraki Global Advisors, a leading global multi-asset outsourced trading firm, today announced that they have selected Neovest, the premier broker-neutral, multi-asset order and execution management system, as their technology provider.

Gregory Sutton, Meraki's Chief Operating Officer and former Partner at Paulson & Co, carried out the selection process and shared the following, "We service a very sophisticated client base and need technology that allows us to manage trades across all asset classes, markets, and strategies. After an exhaustive search, we found Neovest was by far the best system available."

A collaboration between Meraki Global Advisors and Neovest streamlines execution workflow and offers a flexible and robust solution to managers. While Meraki acts as the buy-side trading desk to their clients, Neovest's platform empowers both Meraki and the end client to monitor portfolios in real-time with connectivity to a diverse pool of global liquidity, creating an efficient and confident trade management solution.

Jimmi Shah, Global Head of Strategy and Business Development for Neovest, states, "We are aggressively enhancing our platform to service the needs of the evolving execution landscape. We've seen an uptick in our buy-side client base outsourcing parts of their operations and are excited to fill a need through this collaboration with Meraki Global Advisors."

Meraki was founded with the rebellious determination to deliver conflict-free outsourced trading to asset managers. Launched in April 2019, Meraki act as the client's buy-side desk and provides a global multi-asset solution which includes equities, credit, rates, FX, commodities, and all related derivatives.

The Meraki team is led by Chief Executive Officer Benjamin Arnold. Mr. Arnold began his career in the hedge fund industry before trading for Goldman Sachs in both India and Hong Kong. He is supported by a team composed of former buy-side traders who have lived and traded in Singapore, London, and New York. The experienced team of former hedge fund partners bring a breadth of experience and demonstrate the benefits of what a pure buy-side outsourced desk can provide for today's asset managers.
