MESA Announces Launch of MES/MOM Refresher Programs to Support Smart Manufacturing Professionals

Chandler, AZ, USA March 20, 2025 — The Manufacturing Enterprise Solutions Association (MESA) International is excited to announce the launch of new MES/MOM Refresher Programs through the MESA Global Education Program. These specialized courses are designed to provide professionals in the manufacturing sector with an updated understanding of Manufacturing Execution Systems (MES) and Manufacturing Operations Management (MOM) methodologies, ensuring they remain at the forefront of industry advancements.

These refresher courses are relevant to those who have completed the foundational MES/MOM certificate program through MESA previously and are looking to enhance their knowledge, stay current with evolving technologies, and strengthen their ability to implement and manage MES/MOM solutions effectively.

Offered in two distinct formats, the new programs include:

- 1. MES/MOM Methodologies CoA Refresher Program** – This course offers a comprehensive review of the core concepts, strategies, and best practices associated with MES/MOM methodologies. Participants will deepen their understanding of MES/MOM frameworks and how to apply them to optimize manufacturing operations.
- 2. MES/MOM Methodologies CoC Refresher Program** – Tailored for those seeking a deeper dive into MES/MOM systems, this course provides advanced insights into methodologies used to manage and control operations. Attendees will learn how to navigate complex challenges and drive performance improvements across manufacturing processes.

Key Benefits of the MES/MOM Refresher Programs:

- **Stay Current with Industry Trends:** The manufacturing sector is evolving rapidly. These programs ensure that professionals are equipped with the latest strategies, tools, and best practices in MES/MOM.
- **Gain Certification:** Upon completion, participants will earn an updated certificate and digital badge that validate their enhanced expertise in MES/MOM, boosting their professional credentials.
- **Enhance Operational Efficiency:** The courses provide actionable insights that can directly be applied to real-world manufacturing environments, improving efficiency, quality, and overall performance.

"MESA's MES/MOM Refresher Programs are an invaluable resource for professionals looking to stay ahead in the competitive manufacturing landscape" said Chris Monchinski, Knowledge Committee Chair of MESA. "By enhancing their knowledge of these essential methodologies, they can lead the charge in optimizing operations and driving innovation in their organizations." The courses are now available for registration. For more information about the programs, including course details and enrollment options, please visit <https://members.mesa.org/training>.

About MESA International: Manufacturing Enterprise Solutions Association (MESA) International has been helping the global manufacturing community use information technology to achieve business results through premier educational and research programs, best practice sharing, and networking since 1992. MESA is a 501(c)6 not-for-profit trade association. The Manufacturing Enterprise Solutions Association (MESA International™) is a global community of industry thought leaders actively driving business improvement through the effective application of technology and best practices.
