

Metrics that Deliver: 1 More Reason to Work with Pareto Global Associates

Wednesday 18 June, 2014

[Pareto Global Associates](#) MD [Cyril Williams](#) reveals how the firm differentiate themselves from the competition in the increasingly competitive industry of direct marketing.

Pareto Global Associates is an outsourced sales and marketing firm based in Liverpool who claims to offer a higher ROI than traditional marketing methods. The firm's MD is so confident in their ability to achieve above average results that they offer a paid-on-results business model to clients across a range of industries. "The key reason businesses choose to work with us is due to our guaranteed results – they only pay for the results we generate. The key reason they continue to work with us on a long-term basis is the simple fact that we deliver on what we claim" says a confident Cyril Williams of Pareto Global Associates.

The company's ethos may come across slightly arrogant but the reality is, what they do, most businesses find very refreshing, thus giving them a competitive edge in the direct marketing industry. "We know direct marketing. We understand our client's businesses, we listen to potential customers and as a result we develop campaigns that not only meet, but exceed expectations and deliver strong ROI. It is through this success that we now sit at the forefront of the industry" says Cyril Williams, Managing Director of Pareto Global Associates.

Pareto Global Associates was established to accelerate sales and market growth for new products and services, and fill strategic gaps in companies' sales and marketing operations. In just over 5 years, the firm is already a proven expert in developing measurable, high-performing and innovative direct sales and marketing solutions for local businesses. Pareto Global Associates develops face-to-face sales programs through promotional events that help clients ensure brand recognition, awareness and maximize sales. "We're incredibly proud of what we have achieved in such a short time. The marketing industry is continually evolving and becoming increasingly competitive with new age media and new technologies but we are still achieving such great success through our customised face-to-face approach" says Cyril Williams of Pareto Global Associates.

According to Hubspot, the average click-through rate (CTR) of display ads is 0.1%, and about 50% of clicks on mobile ads are accidental. Those numbers are, at best, abysmal for marketers trying to reach an attentive, engaged, targeted audience. Pareto Global Associates offer a direct marketing solution to businesses struggling to reach their customers and see a return on their marketing campaigns. Cyril Williams explains "We offer a more direct, personalised and results-driven approach as opposed to digital marketing where it can result in wasted marketing spend. Not only is our approach more targeted and humanised, our business model makes it a really cost-effective solution for businesses".
