MiFinity launches eWallet with international Forex company INFINOX

Thursday 5 November, 2020

Dublin, 5th November 2020

MiFinity, a global payments provider, today announced a new partnership with internationally recognised Forex company INFINOX. Following the successful integration, the MiFinity eWallet is now available to clients using INFINOX's online trading services.

This announcement follows on from MiFinity's recent integration with smart cashier software giant Praxis which is the largest B2B platform provider in the FOREX industry.

The revamped MiFinity eWallet presents a state-of-the-art user experience for consumers and competitive pricing for Merchants. The MiFinity eWallet is a fast, simple and secure way for consumers to perform transactions with multiple local payment options that support deposit, withdrawal and transfer functionality in different currencies.

"This is our first of many merchants to go live in the Forex industry. We are really excited about this partnership with INFINOX. This is in line with the company strategy to diversify across industries for 2020 and beyond. Our eWallet functionality will provide additional options to current providers and offer an alternative customer experience to consumers as we continue to grow and increase our market presence. This is another major step forward for the MiFinity group and brand", said Kieron Nolan, Chief Financial Officer, MiFinity.

"Partnering with MiFinity underpins our commitment to provide our clients a premium service. Our thorough vetting process and company policy, to only establish partnerships with companies who match our ethos, means we are very confident our clients will find it even easier to transact with ourselves. We believe that our clients will use MiFinity as a reliable option as part of their trading activity. This is another step forward which coincides with many other improvements taking place within INFINOX2, commented Anthony Stubbs, CEO at IX Capital Group Limited.

About MiFinity

MiFinity, a global payments provider, offers a range of cost-effective and efficient end-to-end payment solutions. It has more than 18 years of experience in the online payments space with a growing network of global partner relationships and a best-in-class, highly secure and regulated technology platform.

MiFinity recently launched its online eWallet, which is targeted at the online gaming, Forex, travel and eCommerce sectors. It is a fast, simple, and secure way for customers to perform transactions with multiple local payment options in different currencies.

MiFinity is evolving into a true 'omnichannel' payment provider to the global online payment market.
