Mining provider Xive has broadened the scope of services, rolled out a rebranding and announced the launch of a free educational platform on mining and cryptocurrencies

Friday 10 July, 2020

Kazakhstan-based mining provider Xive announced mining capacities empowerment and the launch of an updated site on the 9th of July. On xive.io website you can buy a fast mining contract starting from $4.55, pre-order mining powers or even become a partner of the company by filling out an application for the equity purchase.

Besides hashpower sharing, Xive offers its clients mining hardware accommodation starting from $0.042 per kWh.

For its clients Xive offers low upkeep costs, customer support and real-time hardware monitoring. Also, company claims to have the most transparent legal conditions on the market.

“We work legally and value our reputation. Therefore, we provide the highest level of service to our customers.” - stated Didar Bekbauov, founder of Xive.

Learning platform Xive Academy includes a set of educational articles on the company website and a series of free webinars, dedicated to the basics of mining and cryptocurrencies. The first webinar is intended for beginners, but it will also be useful for more experienced users to systematize knowledge and look at mining and cryptocurrencies from a different point of view.

14th of July at 4 PM UTC - “Mining secrets 2020” online webinar will take place. More information and a registration form can be found by link.

About Xive

Xive is an officially registered Kazakhstan-based mining provider that offers remote mining and hardware accommodation services. The company was founded in 2018 as a part of Astana Hub - government-supported international techno hub. Company owns and manages three datacenters and develops real-time hardware monitoring software. In the near future Xive plans to launch hashpower marketplace and own mining pool. Among company services there are hashpower pre-order, fast mining contracts purchase and hardware accommodation.
