MPN Hub | Quarter Four 2020 Update

Wednesday 20 January, 2021

The MPN Hub is an open-access online resource dedicated to providing balanced, credible, and up-to-date medical education on MPN, and is brought to you by Scientific Education Support (SES) in partnership with the European LeukemiaNet (ELN). The MPN Hub aims to enhance knowledge on MPN through disseminating advances related to its classification, diagnosis, treatment, and management via multiple channels.

In November, the MPN Hub held its second steering committee meeting, which was a great success owing to tremendous contributions from its steering committee members. The MPN Hub provided extensive coverage during the 62nd American Society of Hematology (ASH) Annual Meeting and Exposition, held virtually on December 5–8, 2020. The MPN Hub provided live social media coverage of sessions on Twitter, and published video interviews with experts in MPN as well as summaries of key sessions.

The MPN Hub would like to welcome Geron as a new Contributor, and owes thanks to the support of its founding industry partners: Bristol Myers Squibb (Platinum), Novartis (Silver), Roche Genentech (Contributor), Kartos Therapeutics (Contributor), AOP Orphan (Contributor), and Sierra Oncology (Contributor) for their continued support of the platform.

For more information on the MPN Hub, please visit mpn-hub.com.
