### MPN Hub | Quarter Three 2020 Update

Wednesday 21 October, 2020

The <u>MPN Hub</u> launched on June 10, 2020, and has provided extensive virtual congress coverage and educational content during the third quarter of 2020. In July, the MPN Hub held its first virtual <u>Steering</u> <u>Committee</u> meeting, led by MPN Hub Chair Professor Jean-Jacques Kiladjian. These internationally recognized key opinion leaders in the field of myeloproliferative neoplasms (MPN) commended the MPN Hub on a great start to providing up-to-date medical education during the coronavirus pandemic. Priority educational topics were agreed, with pathobiology of MPN, patient-related aspects, and interferon alpha added to the list. The <u>first educational theme</u> on the role of interferon alpha in the treatment of MPN was published on the MPN Hub.

In August, the MPN Hub talked to experts who took part in the first <u>Texas Virtual MPN Workshop (TMW)</u>, discussing treatment options in patients with myelofibrosis and the latest news about emerging therapies. In September, the MPN Hub provided live coverage of the <u>2020 Annual Meeting of the Society of</u> <u>Hematologic Oncology (SOHO)</u> on social media via <u>Twitter</u>, published summary articles on relevant sessions on MPN, and conducted interviews with experts in MPN.

The <u>MPN Hub</u> is an open-access online resource dedicated to providing balanced, credible, and up-to-date medical education on MPN, and is brought to you by <u>Scientific Education Support (SES)</u>, who strive to bring increased knowledge and awareness to healthcare professionals via collaborative networks across the globe. The MPN Hub is run in partnership with the <u>European LeukemiaNet (ELN)</u>.

The MPN Hub is pleased to welcome a new industry partner, <u>Sierra Oncology</u> (Contributor), and owes thanks to the support of its founding industry partners, <u>Bristol Myers Squibb</u> (Gold), <u>Novartis</u> (Silver), <u>Roche</u> (Contributor), <u>Kartos Therapeutics</u> (Contributor), and <u>AOP Orphan</u> (Contributor) for their continued support of the platform.

For more information on the MPN Hub, please visit www.mpn-hub.com.
