Multiple Myeloma Hub | Quarter Three 2020 Update

Wednesday 21 October, 2020

The Multiple Myeloma Hub, with its updated platform, continues to disseminate the latest clinical updates in multiple myeloma (MM).

In August, the Multiple Myeloma Hub provided live coverage of the virtual 46th Annual Meeting of the European Society for Blood and Marrow Transplantation (EBMT) via social media channels, and published summaries of key sessions and expert interviews. The Multiple Myeloma Hub also presented a new editorial theme, 'What you need to know about high-risk multiple myeloma'.

Following this, in September, the Multiple Myeloma Hub was in virtual attendance at the 8th Annual Meeting of the Society of Hematologic Oncology (SOHO) and at the International Society of Amyloidosis (ISA) symposium, generating summary articles and video interviews with experts.

The Multiple Myeloma Hub showcases independent and credible evidence-based literature, drug approvals, case studies, international congress coverage, and expert opinions, and is brought to you by Scientific Education Support (SES). SES strives to build communities and networks to enhance the level of collective knowledge, using multichannel communications to disseminate medical advances.

Guided by an international Steering Committee of world experts, and run in collaboration with the European School of Haematology (ESH), the Multiple Myeloma Hub is a global online resource that provides vital information for treatment teams, including hematologists and oncologists. Our mission is to provide up-to-date practical and clinical advice to community hematologists and oncologists, and ensure patients with MM have access to the latest therapies available.

The Multiple Myeloma Hub would like to welcome its new industry partners Roche/Genentech (Silver) and Bristol Myers Squibb (Silver) and would like to thank GSK (Silver), Amgen (Bronze), and Karyopharm Therapeutics (Contributor) for their continued support of the platform.
