NBB Recycled Furniture Launches Express Delivery Service: Customers Can Receive Sustainable Furniture Within a Week

Wednesday 5 July, 2023

NBB Recycled Furniture, a leading provider of ***eco-friendly outdoor furniture***, is delighted to announce the launch of their new ***Express Delivery service*** on a selection of their best-selling products. This new offering allows customers to receive their sustainable furniture ***within a week*** of placing their order, bringing convenience and efficiency to their shopping experience.

Understanding the value of time for their customers, NBB Recycled Furniture has introduced the Express Delivery service on their best sellers to ensure prompt delivery of their **100% recycled plastic products**. With this service, customers can enjoy the convenience of receiving their desired furniture quickly, all while upholding the principles of sustainability and environmental consciousness.

What sets NBB Recycled Furniture's Express Delivery apart from other services is that all products are made in-house, in Dorset.

As proud members of **Made in Britain**, NBB Recycled Furniture is part of the esteemed British manufacturing community. By displaying the registered collective mark on ***various ranges manufactured in Dorset***, NBB Recycled Furniture showcase their commitment to producing high-quality furniture made in Britain. This membership reinforces the dedication to supporting local manufacturing, promoting British craftsmanship, and delivering excellence in every piece of furniture.

One of the key advantages of the Express Delivery service is ***its transparent pricing***. When browsing the express delivery range, customers can rest assured ***that the price they see is the price they pay***. There are no hidden fees or surprises at checkout. NBB Recycled Furniture believes in providing an exceptional shopping experience, and that includes upfront and honest pricing.

"We are thrilled to introduce our Express Delivery service, offering customers the ***convenience of receiving their sustainable furniture within a week***," said Rhianon Gwyther, NBB Recycled Furniture Trading Manager. "We understand the value of time, and we want to ensure that our customers receive their products promptly, without compromising on quality or sustainability."
