

Netstar IT Support: One of the UK's Top 10 IT Security Providers for 2019

Tuesday 17 September, 2019

London, 11th
of September 2019

- The UK's Top 10 Managed Security Service Providers for 2019 have been announced.
- Netstar IT Support, who serve over 100 clients across London in the Finance, Property and Professional Services sectors have been recognised.

As organisations continue their digital transformation, cyber security becomes an essential component of operational risk. A recent [Threat Report](#) released by McAfee Labs, showed that there was an 118% rise in ransomware attacks in Q1 of 2019. With cyber-attacks continuing to evolve rapidly, businesses without in-house capabilities must rely on their IT Support Partners/ Managed Service Providers to keep them secure.

Netstar IT Support: Bolstering Information Security

With a vision to help people succeed through technology, Netstar provide proactive, fast paced, high quality IT support - so their clients can focus on what they do best. They also deliver expert advice and implement the best cyber security and information management solutions.

Mit Patel, Managing Director of Netstar says: "We recently guided a client to achieve the ISO27001 information security standard. Through the implementation of best-in-class standards for security, we helped ensure their systems are secure and compliant. By partnering with Netstar and using our IT support and security services, they have eliminated the obstacles in pitching their work to larger organisations – enabling them to fulfil their potential."

The UK's Top 10 Managed Security Service Providers for 2019 list is designed to help organisations choose the best IT Support partners for their business. Those on the list offer managed security services which are designed to protect companies as well as address their business goals.

ENDS
