New Organising Team for EMC and Compliance International Exhibition 2024

Thursday 20 July, 2023

EMC and Compliance International is the UK's only independent EMC Exhibition and Training event, held annually at Newbury Racecourse. For 2024, it will be held on the 22nd and 23rd of May, in the main grandstand. Following the success of the 2023 event, the organising team has been expanded to include new and old contacts from the world of EMC, Compliance, and Test Equipment.

Steve Hughes of EMC Standards has been added, and an experienced pair of hands from the EMC-UK days, Alan Warner, will help manage stand bookings and sponsorship opportunities.

Steve said: 'REO will be showing their range of Power Test and Compliance equipment. They had strong enquiries at this year's event and are keen to show their unique capabilities in 2024'.

'The show was a success last year', said Alan, 'but with my experience of the EMC industry I can help make EMC & CI 2024 even better'.

The Training programme will be released very shortly, with the Conference programme following soon after. 'Early bird' discounts will be available for both exhibitors and delegates. Please visit www.emcandci.com to register your interest.
