New PodCast Series from Dental Expert Dominic Thorncroft will expand in 2023 to encompass Tips for Dental Students

Friday 16 December, 2022

Prominent Dental Expert and Adviser, Dominic James Edward Thorncroft, has started a new PodCast series where he discusses various aspects of running a modern dentistry business, as well as discussing a variety of common and unusual dental problems and procedures.

His PodCast is available on a variety of platforms, including SoundCloud and each month will feature different voice artists narrating articles and blogs written by Dominic Thorncroft himself.

Following some early feedback, Dominic Thorncroft will now expand the Podcast to feature tips for new dentistry students, and will also soon create new pages & blogs on his website for the same resource.

Speaking about the new venture, Dominic Thorncroft said 'I'm delighted with the early results from the first few PodCasts, and looking forwards to sharing other ideas and thoughts over time. Giving dental advice freely fits right into my overall philosophy of charitable giving, and I feel certain that there are some great interview moments to come from fellow Dental Experts too.'

So far Dominic Thorncroft's PodCast topics have included Tips for new Clinical Dental Practitioners, an involved and educational Discussion about Common Misconceptions About Dental Care in the UK, as ell as covering some extremely technical and specific aspects of dentistry that will sure to prove popular with dental students and fellow dentists alike.

SoundCloud is a free platform to follow and listen along to - Dominic Thorncroft hopes that the resource proves useful to those new and future dentists out there, and concludes by saying: 'It's great to be able to share my passion freely, and I'm looking forward to adding to it with more recordings over the coming months.'
