The survey asked 1800 UK residents their current and predicted future housing situation; with the scope of questioning including estimated deposits, house worth and the age that non-home-owners hope to be on the property ladder by.

First time buyers in Mid and North Wales hoped to buy a home by the age of 27, whereas those in South Wales aimed to own by age 32; this compares to 37 in Scotland, and 35 across England.

Respondents in South East Wales bought their first home at the youngest average age in the country, at just 24 years old. Mid Wales, however, was more in line with the rest of the UK with an average first time home buyer purchasing aged 29.

	Estimated Deposit for aspiring buyers	Estimated purchase cost for first time buyers	Age they hope to buy
North Wales	16,250	133,750	27
South Wales	25,000	142,500	32
North Scotland	14,500	111,000	36
South Scotland	29,402	119,650	38
North England	18,750	132,950	35
South England	22,950	164,000	35

**The report also found the following trends across the UK:**

- People in **Yorkshire** were the most aspirational in England, aiming to **buy at 31**. However, respondents in Mid-Wales were significantly lower again, looking to buy at 27.

- People in **London** thought they would need an average of **£33,000 for a property deposit**. A figure much **higher than anywhere else in the UK**.

- Respondents in Scotland expect their first home to be a flat, whereas Semi-Detached houses were the popular choice in Wales.
