"Our mission is simple we aim to bring UFO disclosure to the UK and to the world. We want to educate and inform people about the reality that we are not alone and that the public deserves to know the truth. There undoubtedly is a technology in our skies which may be extraterrestrial or may be part of a secret government project. Whatever it is could be used to benefit the whole of humanity, not just the select chosen few."

The channel will host exclusive live interviews with those involved at the forefront of the UFO disclosure movement and will be epicentre of a new campaign to democratise the whole disclosure process. The UFO phenomena is a global one not just centred in the United States.

This is a channel run by musicians and UFO/Paranormal researchers our motto is:

"The Rock & Roll Truth Is Out There!"

We believe that there is more to life than physical reality and we aim to prove this through our channel. We will be premiering our new film on the channel - God Versus UFOs which explores the psychic paranormal aspect of UFOS and follows on to the hit Tubi movie God Versus Aliens.
