Now you can save even more with Kitchen Magic

Wednesday 28 November, 2012

We may be looking at some ‘green shoots of recovery’ as the economic figures take us out of recession and into growth for the first time in months, but across the country households are still watching every penny. So an extra-special offer from Kitchen Magic is just what you need at this expensive time of the year. To make sure your kitchen refurbishment is even more special and a real bargain too, Kitchen Magic are extending their free fitting offer on all orders. Click Here – FREE Fitting on Kitchen Doors

“We’re certain that our customers will love this extra offer, and since we announced free fitting on all orders, we’ve been inundated with inquiries,” comments Marketing Manager Samantha Davies. “This is probably one of our busiest periods ever, and with the run-up to Christmas always a bit of a frantic one, our teams of refurbishment experts are working flat out to ensure everyone who orders now gets their perfect kitchen in time for the festive season,” she adds.

Even better value

The free fitting offer means that Kitchen Magic’s refurbishments are even better value than ever before. Choosing a refurbishment rather than a complete kitchen replacement means that you can have a great looking end result at a fraction of the cost, and with far less disruption than a refit.

“The cost of a complete kitchen refit is split between the price of the units and materials and the charge for fitting,” explains Samantha. “With our offer, not only are you saving a huge amount of money by utilising much of what you already have, but our free fitting offer cuts the cost right down to the bone too, making it the most economical choice,” she adds.

A refurbishment lets you keep your existing layout and, rather than ripping out and throwing away perfectly good units that still have plenty of life left in them, Kitchen Magic will transform the look of your kitchen by replacing doors, drawer fronts and worktops.

This keeps disruption down to an absolute minimum, meaning your kitchen transformation can happen in days, rather than weeks. And with festive attention focused on the kitchen, that’s good news for stressed family chefs across the country!

A start-to-finish service

The free fitting offer is part of their start-to-finish service, that begins with an expert appraisal of your existing kitchen and carries on to specialist design consultations by experienced kitchen designers. Rapid (and of course free!) fitting by their expert refurbishment teams and an after-care service that’s second to none ensures that every customer is delighted with Kitchen Magic’s results.

“We know that although design is key when you’re doing a home improvement, in this age of austerity costs are also a significant factor,” says Samantha. “We want to make sure that Britain’s householders can have the kitchen of their dreams without breaking the bank, and a refurbishment with free fitting is, in our mind, the best way to achieve this. But we’re almost swamped with inquiries for our fantastic kitchen make-overs, so make sure you contact us soon to book your free quotation!” she concludes.
