OiPPS is open for business!

Monday 22 October, 2012

Brand new online retail venture, OiPPS, offers consumers low-cost rigid packaging containers direct from the UK's largest supplier to industry.

Product ranges include plastic, metal, PET and aluminum containers in a variety of shapes and sizes – from tiny tins to great big buckets and everything in between!

The Company's founders spotted a niche in the market for cottage industries, start-up businesses and individual consumers requiring small quantities of quality, cost-effective containers for safely storing a wide range of products. From pet owners looking for vermin proof storage to entrepreneurs looking for creative ways to package their products, OiPPS stocks over 500 different items.

Commercial Director, Paul Littlehales, says, "OiPPS is a one-stop shop for consumers and small businesses looking for the same quality items available to larger industry customers, but in much smaller quantities. Our e-commerce site is an easy way to shop at any time of the day or night – just click through your order and we'll do the rest!"

As a purely online venture with distribution agreements with some of the leading packaging manufacturers in Europe, OiPPS keeps its overheads to a minimum and is able to pass on significant cost-savings to customers.

Paul Littlehales continues, "Sourcing the right packaging at the right price isn't always easy for small businesses where every penny counts. The UK has a great entrepreneurial tradition and we recognised that there is an abundance of small scale producers that may not currently be able to find the packaging they need."
