Op.Dr. Volkan Aray?c? Warns UK Patients About Risks of Low-Cost Weight Loss Surgery in Turkey

Wednesday 12 November, 2025

[Izmir, Turkiye] – [12/11/2025] – As an increasing number of patients from the United Kingdom travel to Turkey for weight loss surgery in Turkey, including procedures like **gastric bypass in Turkey**, gastric sleeve in Turkey, Op.Dr. Volkan Aray?c?, a leading bariatric surgeon, is advising caution against selecting clinics based on price alone. The surgeon stresses the critical importance of prioritising surgical experience and the use of high-quality medical materials over cost-cutting offers that can lead to higher rates of complications.

The growing trend of medical tourism for bariatric procedures has seen many patients seeking affordable options. However, some lower-cost clinics may compromise on safety by employing less experienced surgeons or using counterfeit, low-grade surgical materials. These factors can significantly increase the risk of post-operative complications, turning a life-changing procedure into a hazardous one. It is essential for patients to conduct thorough research and verify the credentials of their surgeon and the standards of the clinic.

What About Gastric Sleeve Cost in Turkey?

One of the reasons many patients consider Turkey for weight loss surgery is the affordability of procedures like **gastric sleeve surgery**. While the gastric sleeve cost in Turkey is often more competitive compared to other countries, Dr. Aray?c? emphasizes the need to balance cost savings with quality and safety. Patients should avoid being swayed solely by low prices and instead focus on finding a skilled surgeon and a reputable clinic. By doing so, they can ensure a safe and effective procedure that meets international standards.

Considering Gastric Sleeve or Gastric Bypass in Turkey?

Turkey has become a popular destination for those seeking procedures like **gastric sleeve surgery** or **gastric bypass in Turkey** due to its affordability and the availability of experienced surgeons. However, Dr. Aray?c? emphasizes that the decision to undergo **weight loss surgery in Turkey** should never focus solely on cost. Patients must carefully evaluate the qualifications of their surgeon and the quality standards of the clinic to avoid any unnecessary risks. With the right surgeon and clinic, procedures like gastric sleeve or gastric bypass can be safe and transformative solutions for long-term weight loss.
