

PHILIPS Projection launches a new ultra accessible NeoPix Collection mini projectors from 89USD (69EUROS)

Monday 3 June, 2019

Philips Projection is unleashing the brand new NeoPix Collection, part of its strategy to extend its leadership in the LED home cinema projector, which is projected to grow to USD 5.7 billion in three years. The new collection is composed of 4 mini projectors bringing solid imaging and connectivity in a high-quality design, subtle yet striking high glossy finish for high durability, at exceptionally accessible price points. Now you can enjoy all your favorite videos, images and even play games, along with Screen Mirroring and Bluetooth. Smooth to use, it's full of possibilities. The NeoPix Collection offer a comfortable image and all the connectivity needed.

NeoPix Start doesn't hold back.

A super easy experience in our most affordable package, with all your favorite features: media player, HDMI, USB and MicroSD, literally at your fingertips. You won't miss a beat! Affordable but not greedy! The NeoPix Start includes a remote control to browse, play your videos, and listen to your favorite tunes.

It also features a built-in speaker for on-the-go sound and can be easily connected to streaming players like Apple TV, Amazon Fire TV, Roku, Google Chromecast, or game consoles!

Start+ can be dragged everywhere thanks to its integrated battery. A wire free projection for up to 60mn! Its design details and high glossy finish give high durability, sleek, and modern design to delivers premium quality from the very first glance to everyday use.

Get more done with the NeoPix Easy!

Smooth to use, it's full of possibilities. Enjoy a comfortable image and brightness, all the connectivity you need, even for streaming and surfing, and easily switch between the internal media player to screen mirroring.

The stereo speakers will ensure you have sound wherever you are, and with the 3.5mm audio jack you can plug in your external speakers for bigger sound.

The NeoPix Easy includes a remote control to browse, play your videos, and listen to your favorite tunes comfortably loved in your bed.

The NeoPix Easy+ model is offering wireless Screen Mirroring function to stream content from your smartphone or laptop and even Bluetooth to connect to external speakers.

Full Brightness, Full Connection, yet accessible!

Experience more on a bigger 120" screen with HD 720p resolution!

The NeoPix Prime amplifies your every viewing experience with its full brightness, HDMI, USB and microSD. Watch your favorite shows with your friends and wirelessly stream all your moments from any portables devices. Thanks to its internal media player, get the freedom you need to play any audio, movie or image files from any sources.

The stereo speakers will ensure you have sound wherever you are, and with the 3.5mm audio jack you can plug in your external speakers for bigger sound.

The NeoPix Prime includes a remote control to browse, play your videos, and listen to your favorite tunes comfortably seated in your sofa.

It also offers Bluetooth to connect to external boomboxes
