# PHILIPS Projection to launch a new premium Screeneo “S" Collection short throw home projectors

**Thursday 27 December, 2018**

**Lausanne, Dec. 27, 2018** — CES 2019: Philips Projection will unleash the brand new Screeneo S, part of its strategy to extend its leadership in the LED home cinema projector market which is projected to grow to USD 5.7 billion in three years. The collection is composed of 3 short throw projectors meticulously crafted with sleek and lightweight materials, an extraordinary image quality associated with an immersive sound system. Smart, connected and ultra bright, the all-in-one Screeneo S collection throws images from HD to 4K HDR and hosts world class picture and video enhancement systems to bring incredible moments with your friends or family.

Screeneo S2 is the essential companion to introduce a theatre like experience at home, packed in a compact design. Versatile and connected, the Screeneo S2 delivers a large, sharp and bright image in HD up to 600 color lumens. Want more out of your screen and get immersive viewing experience? The short throw technology project images up to 120” just few meters away from the wall. No need extra sound devices, the integrated boosted stereo speakers ensure a clean, surround and deep bass sound. Stream content, devore TV shows, and share all your pictures directly to the Screeneo S2 thanks to embedded Wi-Fi and Bluetooth. Screeneo S2 becomes a real companion for all your cinema sessions on the go or at home with the smart Android system.

Watch, play, listen and browse! Smart and intuitive, the Screeneo S4 is the best compromise. Supported by an immersive widescreen Full HD, an enhanced HDR and up to 1,400 color lumens, the Screeneo S4 throw amazing and super bright images. No need extra sound devices, the integrated boosted stereo speakers ensure a clean, surround and deep bass sound. Stream content, devore TV shows, and share all your pictures directly to the Screeneo S4 thanks to embedded Wi-Fi and Bluetooth. Connect our Bluetooth gamepads and enjoy thrilling gaming sessions on a huge display. Screeneo S4 becomes a real companion for all your cinema and gaming sessions on the go or at home.

With an incredible 8.3 million pixels (4K), Screeneo S6 is collection’s super charged projector. It delivers home theater with impeccable precision and crystal clear yet vivid pictures. With up to 1,600 color lumens, HDR 10 and HLG, movies and TV shows come to life with pitch perfect colors and stunning highlights. No need extra sound devices, the perfectly tuned stereo speakers ensure a clean, surround and diving bass. The Screeneo S6 has been meticulously crafted with sleek and lightweight materials. The two aluminum lateral grids give a premium look as well as a smart cleaning filter system. Stream content, devore TV shows, and share all your pictures directly to the Screeneo S6 thanks to embedded Wi-Fi and Bluetooth. Packed with a super powered CPU, Screeneo S6 becomes the ultimate 4K home theatre projectors for cinema addict.

Visitors to the PHILIPS PROJECTION booth 20227 located in LVCC South Hall 1 from January 8-11 will have a chance to experience the newest lineup of projectors first-hand.
