Phytor Launches Wellness-Blood Sugar - A Phytomedicinal Product that Targets Metabolic Imbalance and Elevated Glucose Levels

Wednesday 2 February, 2022

Singapore — 1st February 2022

“Phytor Wellness-Blood Sugar has been developed to target poor metabolic function and elevated glucose levels, providing a critical boost to return people to feeling their best. Each of our formulations have been meticulously studied and carefully calibrated by researchers at NTU”, said Paul Defries, Phytor CEO and Founding Partner.

Positive Customer Impact

What does it do?

Phytor Wellness-Blood Sugar promotes and maintain healthy blood sugar (glucose) levels and is formulated to support efficient functioning of the liver, pancreas and kidneys. Defries added, “since 2009 the NTU Herb garden has successfully helped many people with the Wellness-Blood Sugar formula - delivering real improvements to their blood glucose readings. Phytor Wellness-Blood Sugar also helps combat metabolic syndrome by lowering fasting glucose levels, lowering triglyceride levels and supporting healthy weight management.”

Who is Phytor Wellness-Blood Sugar for?

Recommended for individuals who are:

- diagnosed as pre-diabetic, or suffering from hypertension
- prescribed metformin and are insulin insensitive
- pre-diabetic
- diagnosed with Type 2 diabetes
- diagnosed with high cholesterol levels

About Phytor

Paul Defries explains, “our mission is to help people win the fight against chronic disease. Our goal is to both prevent and cure with our powerful phytomedicinals, to help our customers live better every day. In partnership with NTU, we create natural medicines using rigorous science to bring them unique, proprietary formulations which are manufactured to exacting Singaporean standards”.
