

PLAN-B NET ZERO Named “Company of the Future” at Europe’s Leading AI & Innovation Festival

Monday 11 August, 2025

Berlin – PLAN-B NET ZERO AG, a pioneering GreenTech startup accelerating the transition to a CO₂-free future, has been awarded the prestigious “**Company of the Future**” honor by the German Institute for Sustainability & Economics. The award will be officially presented on **September 10, 2025**, at the **Big Bang AI Festival**, Europe’s largest event for artificial intelligence, innovation, and future trends.

Recognizing companies that demonstrate exceptional commitment, breakthrough business models, and sustainable strategies, the “Company of the Future” award celebrates organizations shaping a prosperous and livable tomorrow. The independent jury of business leaders and industry experts commended PLAN-B NET ZERO for its bold vision, rapid growth, and ability to merge **artificial intelligence, ecological responsibility, and economic performance** — paving the way for **green energy autonomy**.

“This recognition is a tremendous honor for our entire team,” said **Bradley Mundt**, Founder of PLAN-B and a leading voice for digitized energy autonomy. “It validates our unwavering belief that the shift to 100% renewable energy is not only essential for the planet, but also a transformative business opportunity. I am deeply grateful to our outstanding team for their passion and innovation, and to the jury and Big Bang Festival organizers who share our commitment to a sustainable energy future.”

In just two years, PLAN-B NET ZERO has emerged as a key force in sustainable energy technology, leading projects such as the construction of **280 MW of battery storage capacity in Germany** and delivering **affordable green power** to end customers. With a clear mission to inspire customers and partners toward a renewable-powered world, the company combines visionary strategy with proven market execution.

The Big Bang AI Festival — a gathering of innovators, investors, and policymakers from across Europe — provides the ideal stage for PLAN-B NET ZERO to share its vision and showcase the growing role of **GreenTech** in building a carbon-free future.

About PLAN-B NET ZERO

PLAN-B NET ZERO AG is a Berlin and Zug-based GreenTech company dedicated to enabling energy autonomy through AI-driven solutions. The company develops and operates large-scale renewable energy projects, including battery storage systems, while supplying green electricity to businesses and households at competitive rates. By combining cutting-edge technology with sustainable business models, PLAN-B NET ZERO is driving the global shift to a zero-carbon economy.
