

Platinum Software Development Company and its co-founder Anton Dzyatkovskii becomes a member of Blockchain Industry Group, dedicated to the advancement and adoption of blockchain technologies

Sunday 25 April, 2021

Platinum Software Development Company has become an official member of Blockchain Industry Group (BIG), an organization that is dedicated to the advancement and adoption of blockchain technologies through the development and promotion of blockchain standards.

More than 5.2 million social media members support BIG, making it one of the largest, most active, and most beneficial blockchain organizations.

'The acknowledgment of the blockchain community and major organizations is the litmus test for the quality of our work. The Platinum Software Development team members all do their best to make sure our work is profound and helpful for all the blockchain community. We are overjoyed to be accepted as members of Blockchain Industry Group, one of the most respected and professional teams supporting crypto society' - states Anton Dzyatkovskii, co-founder of Platinum Software Development Company.

About Blockchain Industry Group and its benefits

The Blockchain Industry Group promotes the adoption of blockchain technologies by collaborating with and promoting the efforts of the global blockchain community.

There are a lot of benefits to being a member of BIG:

- Membership in the BIG Alliance to advance blockchain technology and use cases.
- Privileged access to meet, connect, network, learn, collaborate, and partner with fellow Members.
- Priority acceptance to its blockchain, technology, and related LinkedIn Groups with 3.8 million members.
- Speaking opportunities at leading, worldwide blockchain events hosted by Event Partners.
- Networking opportunities via free event passes hosted by blockchain Event Partners.
- Introduction opportunities to their worldwide blockchain contacts.

About Platinum Software Development Company

There are 3 products in the Platinum ecosystem that are ruled by a decentralized DAO - called "Q DAO".

[Q DeFi Dashboard](#)

A cross-chain aggregator (supporting popular chains like Ethereum, Binance Smart Chain, Polkadot, Avalanche, Solana, Huobi ECO Chain, TRON, and Zilliqa) that offers a dashboard with which liquidity providers can track their investments.

[Q DeFi Rating](#)

The creation of this profound and trusted rating platform is one of the company's most important goals. This platform offers audits and creates up-to-date ratings of projects in the DeFi sphere.

[QDAO Crypto Custody](#)

Created in cooperation with BitGo for institutional holders and family offices that want to store their crypto assets safely. All funds are kept by BitGo and are insured for \$100,000,000.

Platinum Software Development Company offers their clients to create DeFi dApp using RUST / SUBSTRATE or SOLIDITY / VYPER or launch a dApp on Polkadot / Kusama, Ethereum, TRON or Binance Smart Chain.

Platinum Software Development Company helps customers create NFT marketplaces similar to Rarible / SuperRare / OpenSea or build a swap protocol like Uniswap / Curve / PancakeSwap.
